

INTERNATIONAL NETWORK FOR THE
CONSERVATION OF CONTEMPORARY ART

List of artists in the INCCA website

When INCCA members add a member document to the INCCA website, it is possible to enter the name of an artist which then gets saved in an artist name vocabulary within the site.

This document is an extraction from the website, done by hand and so may not include all of the most recent additions to the artist name vocabulary in the INCCA site.

In addition, it is also possible that there is information about artists in news items, articles, blogs or events and that those artist names are not in this list either.

If you have added information on the INCCA website concerning an artist that is not in this list. Please send that artist name to info@incca.org and the artist name can be added to the list on your behalf.

This version was made on the 3rd of July 2018.
